

	Name	Quantity	All year	Winter only	Visitor	Fly over	Improve numbers	Minimise numbers	Status	Comments	Suggested	
Birds	Barn owl										field voles, mice, shrews etc. requires rough grassland	
	Black headed gull	10+									Insects worms, fish, carrion	
	Blackbird		BREEDING								Insects and berries	
	Blackcap	singles			BREEDING						Insects and berries	
	Blue tit	singles	BREEDING								Tree cavities and/or nest boxes, eats caterpillars and nuts	
	Bullfinch	pairs	BREEDING								Seeds, buds and insects	
	Canada goose	20+							N/A	Introduced		
	Carrion crow	singles	BREEDING								carrion, insects, worms seeds, fruit, eggs, scraps	
	Chaffinch	singles	BREEDING								Insects and seeds	
	Chiffchaff	2+			BREEDING						Insects and seeds	
	Coal tit	singles	BREEDING								Insects and seeds and nuts	
	Collard dove	pairs	BREEDING								seeds, grains, buds, shoots	
	Common buzzard										small mammals, birds and carrion	
	Common redpoll	10+									Small seeds from birch, alder and spruce and insects	
	Cormorant	singles										
	Dunmoor		BREEDING									Insects, spiders, worms and seeds
	Fieldfare	10+										Insects worms and berries, Cotoneaster especially important
	Goldcrest											Pine trees
	Goldfinch	50+	BREEDING									Seeds and insects
	Great black backed gull	10+										Omnivorous - shellfish, birds and carrion
	Great spotted woodpecker	2+	BREEDING									Insects, seeds and nuts
	Great tit	singles	BREEDING									Insects, seeds and nuts
	Green woodpecker	singles	BREEDING									Ants!
	Grey heron	singles										
	Grey wagtail	singles										Insects
	Herring gull	singles										
	Hobby	singles										
	House martin	10+										
	House sparrow		BREEDING									Seeds and scraps
	Jackdaw	5+	BREEDING									Insects, young birds, eggs, fruit, eeds, scraps
	Jay	2+	BREEDING									Acorns, nuts, seeds, insects, occasionally nestlings of birds and small mammals
	Kestrel	pairs										Small mammals, burds, worms and insects
	Kingfisher	singles										Fish and aquatic insects
	Lapwing	50+										Worms and insects
	Lesser black backed gull	10+										
	Lesser redpoll	pairs										Seeds, especially birch and alder, willowherb, sorrel
	Lesser spotted woodpecker	singles	SCARCE									Insects
	Linnet	5+										Seeds and insects
	Little grebe	singles										Insects, larvae and small fish
	Long tailed tit	8+	BREEDING									Insects, occasionally seeds
	Magpie	5+										Omnivores and scavengers
	Mallard	15+										Seeds, acorns berries, plants, insects and shellfish
	Mistle thrush		BREEDING									Worms, slugs, insects, berries
	Mute swan	5+										Water plants, insects and snails
	Nuthatch	pairs	BREEDING									Insects, hazelnuts, acorns, beechmast, general nuts and seeds
	Peregrine	pairs										
	Pheasant	singles								N/A	Introduced	
	Pied wagtail	20+	BREEDING									Insects
Raven	5+										Carrion, mammals, birds, eggs, insects and invertebrates	
Red kite	5+											
Red legged partridge	4+								N/A	Introduced	Seeds and roots	
Redwing	10+										Berries and worms especially the Cotoneaster	
Reed bunting	2+										Seeds and insects	
Robin		BREEDING										
Rook	10+	BREEDING									Anything!	
Siskin	30+										Seeds, especially of conifers, Alder birch, insects	
Skylark	2+										Seeds and insects	
Song thrush		BREEDING									Worms, snails, fruit	
Starling	10+	BREEDING									Invertebrates and fruit	
Stock dove	5+										seeds	
Swallow	10+			BREEDING							Small invertebrates caught on wing	
Swift	10+										Insects and spiders	
Tawny owl	2+	BREEDING									Small mammals, rodents, birds, frog, fish, insects, worms	
Teal	2+									Water	Seeds and small invertebrates	
Tree creeper	2+	BREEDING									Insects, spiders, some seeds	
White throat	singles				BREEDING						Insects, berries, fruit	
Willow warbler	2+				BREEDING						Insects, spiders, fruit, berries	
Wood pigeon	10+	BREEDING									Cabbage, sprouts, peas, grains, buds, shoots, seeds, nuts, berries	
Wren	5+	BREEDING									Insects and spiders	
Yellow hammer	5+										Seeds and insects	
Yellow wagtail	6+										Insects, flies and beetles	

Mammals	Badger									Scat found on nursery	
	Bank vole	1	BREEDING								Habitat: Woodland, hedgerow, parks, gardens. Feeds on: fruit, nuts, small insects, hazelnuts, blackberries
	Brown hare	2							N/A		Habitat: grassland, woodland edges, arable cropland, hedgerows. Feeds on: vegetation, bark, bushes
	Brown rat	2	BREEDING								
	Common pipstrelle	3									Habitat: tree cavities/ roof spaces for roosting, ranging habitat. Feeds on: moths, midges, nocturnal insects
	Common shrew	3+	BREEDING								Habitat: prefers woodland and grassland. Feeds on: earthworms, spiders, chrysalises
	Common vole	6+	BREEDING								Habitat: grassland, heathland, moorland. Feeds on: seeds, roots and leaves
	European rabbit	10+	BREEDING								
	Grey squirrel	5+	BREEDING								
	Hedgehog	1+	BREEDING								Habitat: Require leaves, moss and grass for nesting. Feed on: Slugs, snails beetles, earthworms, eggs nestlings, carrion
	Mole		BREEDING								Mole hills on entrance drive
	Polecat	1									
	Red fox	1									Habitat: Wooded habitat, marshes riverbanks, dry stone walls. Feeds on: rabbits!!
	Reeves muntjac	2+								N/A	Introduced
	Stoat	6									Habitat: grassland, woodland, farmland, heathland. Feeds on: rabbits
Weasel	1									Habitat: grassland, woodland, farmland, heathland. Feeds on: voles, mice, birds, other small mammals	
Wood mouse	6+	BREEDING									

Butterflies and moths	Brimstone		SPRING								Habitat: scrubby grassland woodland, verges and hedgerows. Feeds on: Buckthorn, Alder buckthorn, buddleja
	Comma										Habitat: Open woodland, woodland edges. Feeds on: common nettle, hop, elms, currents, willow, rotting fruit
	Elephant hawk moth*									* larvae only	Habitat: Parks and gardens, woodland edges, rough grassland. Feeds on: Willowherb, fuschia, bedstraw.
	Gate keeper		meadow*								Habitat: Grassland, hedgerows and woodland edges. Feeds on: Marjoram, ragwort and bramble. Avoids: short open grassland.
	Green veined white		BREEDING								Habitat: damp areas with lush vegetation, hedgerows, woodlands, meadows. Feeds on: brassicaceae family, cuckoo flower, hedge mustard
	Holly blue		BREEDING								Habitat: parks, gardens, hedgerows, woodlands. Feeds on: flower buds, berries and terminal leaves of holly and ivy, can also use, spindle, dogwoods, snowberries, gorse, bramble
	Hummingbird hawk moth								N/A	Introduced	Habitat: coastal, woodland, urban. Feeds on: galium species, wild madder, red valerian
	Large white		BREEDING								Habitat: gardens, allotments. Feeds on: Cruciferae family, cultivated brassicas, nasturtium, crambe
	Marbled white		meadow*								Habitat: unimproved grassland (chalk or lime stone), woodlands, verges, embankments. Feeds on: red fescue, Yorkshire fog, Tor-grass
	Meadow brown		meadow*								Habitat: grassland, meadows, verges, hedgerows, wasteground, woodland edges. Feeds on: range of grasses
	Orange tip		meadow*								Habitat: damp areas, meadows, woodlands, hedgerows, banks of stream and river. Feeds on: cuckoo flower, garlic mustard, other crucifers
	Painted lady						migrant				Habitat: Dry, open areas. Feeds on: thistles, mallow, nettle, viper-bugloss, buddleja
	Peacock		BREEDING								Habitat: wide ranging. Feeds on: nettles, hop
	Poplar hawk moth										Habitat: heathland moorland, parks, gardens. Feeds on: poplars, aspen, white poplar, black poplar, willows, willow
	Privet hawk moth										Habitat: woodland, hedgerow gardens, downlands, fens, coastal scrub. Feeds on: privet, ilac, ash saplings, holly, honeysuckle, snowberry, viburnum tinus, forsythia, spirea
Red admiral		BREEDING								Habitat: any habitat. Feeds on: Buddleja, nettles, hop	
Scarlet tiger									UNKNOWN	Habitat: wetlands, coastal habitats, floodplains, gardens, woodlands, ditches. Feeds on: comfrey, nettles, bramble, willow, honeysuckle, meadowsweet	
Small heath		meadow*								Habitat: dry, wet, fine grasslands, verges, moorland, woodland rides. Feeds on: fine grasses, meadow grasses, bents	
Small tortoiseshell		BREEDING								Habitat: wide ranging. Feeds on: nettles	
Small white		BREEDING								Habitat: wide ranging. Feeds on: cultivated brassicas, nasturtiums, charlock, hedge mustard, garlic mustard,	
Speckled wood		BREEDING								Habitat: woodland, hedgerows, gardens, parks, preferably damp, shady areas. Feeds on: False broom, cocks-foot, yorkshire fog, common couch	

Arthropods	Aphids										
	Buff tailed bumblebee										Habitat: wide ranging. Feeds on: nectar
	Common wasp		BREEDING								Habitat: wide ranging. Feeds on: aphids, caterpillars, flies, invertebrates
	Devils coach horse		BREEDING								Habitat: compost heaps, flowerbeds, hedges. Feeds on: Fly larvae, insects, spiders, slugs
	Flea beetle										
	Giant horn tail wasp		BREEDING								Habitat: pine woodland. Feeds on: Rotting wood
	Giant house spider		BREEDING								
	Hornet		BREEDING								Habitat: flower beds, hedges, herb garden. Feeds on: insects, tree sap, fallen fruit
Ladybirds											
Lesser stag beetle		BREEDING								Habitat: grassland, farmland, woodland, towns and gardens. Feeds on: rotting wood	
Violet ground beetle		BREEDING								Habitat: compost heaps, flowerbeds, hedges. Feeds on: slugs, snails, worms and insects.	

Amphibians / reptiles	Common frog										Habitat: meadows and ponds. Feeds on: snails, slugs, worms
	Common toad										Habitat: bogs, flower beds, hedge. Feeds on: larvae, spiders, slugs, worms, slow worms, small snakes, mice
	Grass snake		BREEDING						PROTECTED		Habitat: grassland, woodland, wetlands, farmlands, freshwater. Feeds on: amphibians, fish, small mammals and birds,
	Slow worm										Habitat: bog garden, compost heap, hedges. Feeds on: slugs, snails, spiders, insects, earthworms
Smooth newt									PROTECTED	Habitat: shallow, standing water. Feeds on: insects, slugs, worms, water snails, crustaceans, tadpoles	

Annellids	Garden pond leech										Habitat: ponds
